**See it if** you want to experience a powerful staging of a complex masterwork

**Don't see it if** you need your plays to be plot-driven; if you're not up for a bleak story told with mordant comic flair

**See it if** you like challenging, difficult theater. This play walks the line between comedy & tragedy & you are never sure if you should laugh or cry.

**Don't see it if** you want a breezy comedy or an easy drama. It is truly distressing, made even more intense by the proximity of the actors.

**See it if** you enjoy wonderfully acted and masterfully staged-in-a-small-space contemporary plays. Actors are so close you get to feel what they feel.

**Don't see it if** you want to see an entertaining, light comedy. This powerful story goes deep into human basic needs and shows us our survival mode raw.

**See it if** You like intense, thought-provoking shows that tackle difficult subjects. You like great acting in intimate spaces.

**Don't see it if** You are squeamish about violence or sexual content.

**Also** This show gives a voice to characters so impoverished that they rarely get to have their stories told. It tackles bleak subjects with humor and honesty. Loved the production, and will definitely look into more of this playwright's work. [Read less](#)

**See it if** You are interested in plays that fearlessly take on tough subjects.

**Don't see it if** You don't want to see violence (I hate blood and gore and this wasn't too bad).

**Also** I hated the plot/the characters/everything so much. It was also one of the best shows I've ever seen. Come to be completely thrown off your axis. [Read less](#)
